Lynching With Impunity

Lynching With Impunity

The mob which lynched Roy Hammond at Bowling Green, a short while ace got just what her expected—a satisfied blood lust and more of their members punished by the state.

Evidently, it was a prearranged affair with Sheriff Moore, and the mob was assured that not a hair of the head of anyone who took part in the hynching would be hun. The leaders of the mob knew the intended victim of their last was a Negro, and as such, would not be accorded the equal protection of the law. Therefore, they moved on their victim without fear, but with impunity. The power, of the law is the penalty thereof. Immune violators and the law becomes tull and wild.

The State owes every citizen the protection of its laws. The State functions, shrough its duly and condituted officers. The rights of the people are only secure, so long as the officers do their duties. Failure on their jern and we will have anarchy and ruin. The only way to safely steer the ship of state from mob violence, bything, holshevists, marchy itots and disloyatt, is for the officers to do their duty. Courting favor-with mobas is the sarring a snake in the bosom. The mature of a snake is to late we soon as it is strong enough. No make into the late of the sheriff front office, there unglit to be. The governor owes, if to the sheriff front office, there unglit to be. The governor owes, if to the exployed of this State to do all in his power to bring the guilty parties to justice.

Ku Klux Klan

According to newspaper reports, a band of outlaws has been or-zed in this city under the style and name of Knights of Kn Klux

The high an lofty purposes (?) as announced by the Grand "Gob-"are; I rost. The only purpose of the organization is to propagate these t tried States a Southern idea of government which was born for and thuring the Uvil War. As a matter of fact, the people of South have less regard for lead and order than any other portion of

before and during the Uvil War. As a matter of fact, the people of the South have less regard for law and order than any other portion of the country.

We shallenge the statement of the lofty purposes in any community. The around following the path where such an organization exists shows no lofty ideas of its aemalers, not any noble deeds to their credit. Plans the solver hand, the path that follow in the wake of the Na-Nhay Ean at Sail or food deeds, mysistrious murders may noble deeds to their credit. Plans the solver hand, the path that follow in the wake of the Na-Nhay Ean at Sail or food deeds, mysistrious murders may not be formed of crime. Their lofty ideas are, in fact, not above those of the lorgest of crime. Their lofty ideas are, in fact, not above those of the lorgest limite foor, without regard for the constituted authorities of the law is the bind of work they are doing.

A tristing coincident corners to our usind as we think of the unsual majeder of larins Pillow, the Negrob bank messenger, by might riders a few nights ago. The best minds of the city admit that it is a trange case. They admit that never hefore has a cold-blooded miredry occurred in this City; all the circumstances considered. Of course, nor considered with the Ku-Niku-Kjan will admit hat it is the work of the Klan, because they are sworn to do their work under the shadow of darkness, and in servery. Yet, they like publicity. Who knows but, that the merder of Erris Pillow was the first big gun celebrating the entrance tate the city of that mysterious band. We imagine that a server merting has been called and the members have been informat to go out, and get recruits on account of this mysterious marder. There is an account to this mysterious marder. There is an account to this mysterious band.

So dolly in our mind but that there is some significance attached to it like, the particular of the kink-kink work ought up over the murder of like is lated that while the whole city is wrought up over the murder of like is lated to the kin

The Tragic Death of Erris Pillow

The Tragic Death of Erris Pillow

Nothing has stirred the city in the catalogue of crime in many a day as we the tragic death of Erris Pillow, the bank messenger, which accurace in this city, a few days ago.

To be yor be was not the first to be shot without warning or a chance to defead binused in this city. In other instances gang feeds or dd protegles have figured in the cases. This was out of the usual in character, in other respects. The police are balled as to a clas to the monder. While it is generally believed that the mostlere was to deattoy a State aircea, yet myster y surrounds the case.

It as, be fifth the wrone class have been given ino much actention. In as much as use do not know who are confirmed of that organization be looked into and perhaps a class to this strange case of mander myst be decovered.

Crimes and Punishments
